

# VIDUSHI GARGI CENTRE *for* WOMEN DEVELOPMENT

Wajra O' Force have shown their willingness to collaborate with GTU and have invited us to serve as their knowledge partners for Wajra's herSTEAM – Life Skills project. As a part of this collaboration, female faculty members of various PG Schools have visited the schools adopted by the foundation to educate the young girls on various topics in order to boost their motivation to continue with their education.

Prof. (Dr.) Komal Borisagar conducted session on 02/02/2024 at Vasna Municipal School located at Vasna, Ahmedabad district, wherein they interacted with the girls on topics of AI and related emerging technologies. The enthusiast girls (approx. 50) found the session very interactive and informative.

The session on Basic AI and Emerging Technologies aimed to introduce municipal students to the fundamentals of Artificial Intelligence (AI) and various emerging technologies. Hosted at Vasna, the session provided an interactive learning experience for students to explore the exciting world of technology. Students were introduced to real-world applications of AI and emerging technologies in various sectors, including healthcare, education, transportation, entertainment, and finance. Case studies and examples were shared to illustrate how these technologies are transforming industries and improving lives. The session concluded with a discussion on career opportunities and future prospects in the field of AI and emerging technologies.

The session received positive feedback from students, who expressed enthusiasm and curiosity about AI and emerging technologies. Many students were inspired to further explore the field and pursue future opportunities in technology. Overall, the session served as a valuable introduction to the world of AI and emerging technologies for municipal students.
